ABOUT

I am a Communication Designer. When I moved to Milan, my academic studies allowed me to develop various skills; including video editing, photography and branding. A predilection for stories, of all genres and forms, is the core of my creative approach. Fueled by an interest in reading, my personal formation has given me an understanding of storytelling, in order to transform complex ideas into visual communications.

EDUCATION 2023 – present

Master's degree of Design della Comunicazione at Politecnico di Milano (Milan, Italy)

January – June 2023

Erasmus Experience, at École De Communication Visuelle (Paris, France)
